

WHO WE ARE

Mothers For Democracy Institute is a 501(c)(3) nonprofit organization driven by a mission to cultivate a deeper understanding of the vital issues and democratic values in America by harnessing the power of multimedia and content production.

We believe an informed citizenry is the cornerstone of a thriving democracy. Our plan is to foster awareness and create conversations by producing educational materials like podcasts, webinars, short documentaries and other online content, to help promote quality education, address climate change, and recommit to our shared democratic values.

OUR WORK

- ★ Webinars & online organizing
- ★ Short documentaries & ads
- ★ Public speaking & presentation engagements
- Our first podcast *The Voucher Scam*, a four-episode series that goes in-depth covering the aggressive push to defund public schools in Texas

1

OUR VALUES & VISION

Mothers For Democracy Institute is deeply committed to promoting small-d democratic values that resonate with families and individuals across the United States. This means equal treatment under the law, fair and just laws, free and fair elections, and it means committing to thwart the rising tide of anti-democratic authoritarianism.

We also recognize the significance of fostering unity in diversity and the importance of amplifying marginalized voices so that every American has a platform through which to be heard. And we believe the best way to empower the voices that must be heard is to ignite change through media.
